EXPERIENCE

RigUp Product Design Lead
Austin, TX | 2014–2016
RigUp is the fastest growing startup in oil & gas, helping petroleum engineers bid work out safely.

- Led design throughout all stages of the product development process
- Designed reusable pattern library to scale design during rapid growth
- Collaborated closely and strategize product design with engineering, product, and marketing teams
- Wore a lot of hats - from pushing code, usability testing, copywriting, to developing client pitches

Spredfast UX Designer
Austin, TX | 2014
Designed branded experiences that captured real time social data across mobile, web, and in-venue. Clients include NFL and Univision.
