Megan Vo

MEGANVO.GITHUB.IO • MEGANMVO@GMAIL.COM

Product designer who practices informed decision-making through research, data, & a dash of intuition.

EXPERIENCE

RigUp Product Design Lead
Austin, TX | 2014–2016
RigUp is the fastest growing oil & gas marketplace, where we connect engineers & vendors for an easier bidding process.

- Led design team throughout all stages of the product development process
- Designed modular design system for scalability during rapid growth
- Collaborated closely with engineering and product teams to strategize product roadmap
- Wore a lot of hats - from pushing code, usability testing, copywriting, to developing client pitches

Spredfast UX Designer
Austin, TX | 2014
Designed branded experiences that captured real time social data across mobile, web, and in-venue. Clients include NFL and Univision.
